

Goals of NESDIS CI Directors' Meeting

Ingrid Guch

June 16 2009

Meet

- New people and themes at CICS and CIRA
- New CI Program at NCDC
- New people at STAR

Progress on CI-led items of interest

- Satellite algorithm test bed
- Investigate CIs role in climate models and climate data analysis
- Collaborative teaching
- Joint Center for Satellite Data Assimilation

Way forward

- Keep working on previous CI-led items of interest (4 items) ? Add/reword/subtract items?
 - Add GOES-R Proving Ground?
- Change methods to make more progress?
- New actions/goals

Looking ahead

- How big should NESDIS CI program be?
 - How many CIs?
 - CIs based on themes/regions/other?
 - Are we missing key areas?
 - Can we tackle key problems?
 - Do we interact enough with the rest of NOAA and NOAA CIs?

More?
